

GUARDIAN FACTS: THIS WEEK, WE SECURED A MAJOR FINANCIAL INSTITUTION.

This week, Guardian partnered with one of the world's largest financial institutions to manage a critical IT asset disposition project. Our teams successfully decommissioned over 800 servers across multiple data halls in a single weekend, ensuring 100% onsite data destruction.

This operation was executed with meticulous planning and flawless coordination, minimizing disruption and guaranteeing the highest level of security. For financial institutions where data integrity and operational continuity are paramount, Guardian provides the expertise and reliability that transforms complex challenges into seamless successes.
