

THIS WEEK, WE SECURED A NATIONAL LAW FIRM.

This week, Guardian helped a leading national law firm decommission legacy storage across three regional offices. Our teams meticulously managed the process, including the onsite shredding of **1,500** high-density drives.

We provided **serialized certificates of destruction** for every single drive, ensuring an unassailable audit trail for their highly sensitive client data.

This operation was executed with absolute precision, allowing the law firm to maintain strict compliance and focus on their core legal services, confident in the **complete security of their retired assets**.

Let Guardian be your competitive advantage!

ONSITE SHREDDING

Complete data destruction
at your location.

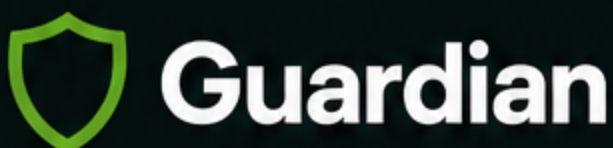

SERIALIZED CERTIFICATES

Every drive accounted for.
Every time.

COMPLIANCE ASSURED

Unassailable audit trails for
complete peace of mind.

Built on trust. Delivered with
the **Guardian Wow.**

WANT TO DO MORE OF THIS TYPE OF WORK FOR CLIENTS?
**LET GUARDIAN BE YOUR
COMPETITIVE ADVANTAGE!**
